

# NORTHSHORE RESORT

**D**reaming of spending your vacation surrounded by water and water sports? Steer your way straight to the Mojave Desert. Sound crazy? It's not, at least not at NorthShore Resort, a Coast Premier property on the western banks of America's fifth longest river, the Colorado.

One of six Colorado River Adventures resorts that open their gates to Coast to Coast members, NorthShore is an enticing oasis on the California–Arizona border. Not only does the Colorado River run right past the resort, the deep blue waters of Lake Mohave ripple just minutes away. NorthShore Resort makes it easy to get out on the water and have a good time

with its own boat launch, but first you'll have to make the tough choice between boating, fishing, jetskiing, kayaking, tubing or plain old swimming.

A hundred and 20 full-hookup campsites welcome RVers at NorthShore Resort, and some sit right on the river. You can wind down at the swimming pool and hot tub or have fun on dry land at the recreation center, horseshoe pits and shuffleboard court. A gated entrance and round-the-clock security make it easy to relax.

For the adventurous, hundreds of secluded sandy beaches line the shores of the Colorado River and Lake Mohave. In the summer, boaters seek out their own private spots for swimming, picnicking and fishing. Just a short drive away in Laughlin, Nevada, you can try your luck at casino gaming or take in a big-name act.
