

# BASS LAKE RESORT

## Three decades of providing unforgettable memories in central New York

Practice makes perfect, and the staff at Bass Lake Resort in Parish, New York, have perfected the art of making guests feel pampered and at home in this 244-acre resort. Many of the guests have been vacationing here since the beginning, creating priceless memories.

A 30-acre private lake is ideal for fishing, boating, or just relaxing. Make sure you pack your fishing equipment and aim once again for the “big one.” There’s more water adventure in the two outdoor swimming pools. The two clubhouses—one for families and one just for the adults—ensures everyone has entertainment aimed at their interests.

Leave your apron at home and dine in the onsite restaurant and bar, which features delicious large-portion homemade meals and desserts. Get in line for the Sunday morning breakfast buffet. If you’ve forgotten something, shop at the country store.

Take long hikes or short walks on the many nature trails.

Meet friends or make new ones at the miniature golf course. Let your dog exercise in the newly built dog park and enjoy Wi-Fi throughout the resort.

Bass Lake Resort, now part of the Travel Resorts of America resort group, is conveniently located just 25 miles north of Syracuse and 40 minutes south of Watertown and is easily accessible by Interstates 90 and 81.

“The sites are very well kept up and clean,” say Mimi Van, a guest from Syracuse, New York. “There is always help available if there are any problems and we always feel safe. The cafe has wonderful homemade food at reasonable prices. Staff members couldn’t be any friendlier! Lots to do, especially for kids.”

For big water, travel northwest to Oswego, New York, and Lake Ontario—the 14th largest lake in the world. The city of Oswego is home to many museums and historic sites. The harbor hosts many events.
