

# CYPRESS CAMPING RESORT

## **A Myrtle Beach resort that marries the love of camping, fishing, and water sports**

If you like to vacation with your boat in tow, then make your reservations at Cypress Camping Resort in Myrtle Beach, South Carolina. The resort was the first to offer access to the Intracoastal Waterway in the area—the perfect opportunity to vacation with your boat in tow.

Cypress Camping Resort not only offers waterway access, but combines it with relaxation in South Myrtle Beach.

“The one thing that makes us very special is that we have a very quiet and relaxed atmosphere for a beach campground,” says Owner Kenneth Hucks. “You may even say instead of beer and popcorn, we are the wine and cheese campground.”

Park your rig in large full-hookup pull-through cement pad campsites with amenities such as 30 and 50 amp power, cable TV, and free Wi-Fi. Although quiet, you won’t feel cut off because there’s a fully-stocked camp store and café.

If you travel without your RV, make reservations to stay in one of the six cabins or two bunkhouses. There’s also an ADA

cabin available. All restrooms are wheelchair accessible.

When it comes to camping and planned activities we have you covered. It doesn’t matter what your age is, if you can walk, run, and play there’s something for you. Cypress Camping Resort offers year-round planned activities.

The resort offers a shuttle service to the nearby beaches during the summer season. There’s a state-of-the-art Amenity Center with conference center, game room, and group meeting area for large groups and entertainment activities. Amenities include adult and children’s pools, playground, pontoon and peddleboat rentals, temporary boat storage at docks, and all with 24-hour security.

Make your plans today to start your camping memories with Cypress Camping Resort on the peaceful side of Myrtle Beach along the Intracoastal Waterway.
