

# KALAMAZOO RESORT

## An exciting addition to the extensive Outdoor Adventures family

It's possible you've used the names Timbuktu and Kalamazoo referring to faraway places. We don't know about Timbuktu, but a trip to Kalamazoo, Michigan, may very well be in the near future for you because Kalamazoo Resort has been added to the extensive Outdoor Adventures family. And once there, you'll enjoy your vacation in the beautifully laid out resort with tree-covered spacious sites and 24-hour security.

"The Outdoor Adventures family is very excited to offer another resort very close to the beautiful coast of Lake Michigan," says Communications Director Deanna Campbell. "This resort boasts three lakes, lots of water fun, and lush surroundings. Whether in the resort or in nearby downtown Kalamazoo, a trip to Outdoor Adventures Kalamazoo Resort means tons of fun for the whole family."

In addition to three spring-fed lakes, you'll also find a stocked fishing pond. The lakes are perfect for a stroll around, a swim near the sandy beach, or take a kayak or paddle boat tour. You

can also wade in the creek or set up your lounge chair to just sit and cool off.

Travel 10 minutes to the shores of Lake Michigan where there are many beaches. The soft, white sand is known as singing sands because of the squeaking noise it makes when walked on.

Onsite, take a nature walk and look for resident swan, ducks, and geese. Grab your friends and play a round of putt-putt or a game of horseshoes. Pick up a basketball game or play volleyball. Visit the lodge and relax with the flat-screen TV and fireplace. Activities are regularly scheduled along with some awesome entertainment.

If you've forgotten something, don't worry, the general store will probably have anything you might need, plus firewood for that evening marshmallow roast.
