

# DELTA SHORES RESORT & MARINA

## Situated on the Mokelumne River in the Sacramento Region

The river and the Sacramento Delta are great reasons to visit Delta Shores Resort and Marina. The area is a favorite for boaters, water-skiing enthusiasts, and anglers. There's lush scenery on the banks and otters, beavers, herons, and bald eagles also call the area home.

Delta Shores Resort & Marina is so much more than a base camp for all that's happening in the Sacramento Delta Region. You never have to leave this beautiful resort. Consider all that this Isleton, California, resort has to offer: boat and RV storage, private docks, clubhouse, pool and spa, sports court, and spacious full-hookup sites. Other amenities include horseshoe court, volleyball, playground, basketball, mini golf, and newly renovated restrooms with shower, all within the resort which has 24-hour security.

The river also attracts whitewater rafters and kayakers. Check out five notable runs: Fantasy Falls, Devil's Nose, Tiger Creek Dam, Ponderosa, and Electra-Middle Bar. And Electra Road, just east of Highway 49, is a popular place to run, walk, and enjoy the river. The large granite domes—Calaveras Dome

and Hammer Dome, near Salt Springs Reservoir—are popular for technical rock climbing.

But back on the resort, you can relax at your spacious campsite and enjoy the ambiance, or you can meet old and new friends at one of the resort's weekly activities.

These include live bands, bingo, barbecue, themed weekends, karaoke, fishing contests, family movie nights, special kids' activities, pot-lucks and casino nights.

The Delta is home to approximately 22 species of fish, including several Pacific salmon species, striped bass, steelhead trout, American shad, and sturgeon. The Delta supports a rich wintering bird community that includes Swainson's hawk (breeding and wintering), tundra swan, sandhill crane, and short-eared owl. Tens of thousands of shorebirds and hundreds of thousands of waterfowl visit the area in winter and during migration.
