

YUMA LAKES RESORT

Soak in the blue skies and sun that shines 310 days a year

Yuma Lakes Resort is tailor-made for snow birds who want to escape freezing winter temperatures. Once at the resort, you're just minutes from Mexico. It's easy to make a day trip into Mexico where you can immerse yourself in the colorful culture, go shopping, or take in the sights.

But you'll first want to also explore all that Yuma Lakes Resort has to offer. Relax at the spacious clubhouse to meet new and old friends. From the planned breakfasts and dinners to the ice-cream socials, there's always something inviting to do including bingo, cards, and pool tournaments.

Slip into the pool to cool off. It's heated so it's a perfect way to enjoy fun in the sun. Relax in the Jacuzzi. If you prefer something a little more exerting, go for a hike. Just outside the gates, you'll find miles of mountain and desert trails. It's also a great place to ride an ATV. Play shuffleboard, bocce ball, or miniature golf—all secure knowing there's 24-hour security.

Because Yuma was the safest spot to cross the Colorado River, all roads led to Yuma for travelers from Spanish explorers to Okies fleeing the Dust Bowl. You, too, can take advantage of the proximity to the river, using Yuma Lakes Resort as a jumping off place. Take a jet boat narrated tour of historic sites along the river or go a little slower and tour the area on a sternwheeler. There are also birding and photography tours.

The town of Yuma with its museums and historic parks is only a short distance away. With 13 challenging golf courses, Golf Digest has ranked Yuma the 7th best city in the U.S. for golf.
