

YUMA LAKES

COLORADO RIVER ADVENTURES

Yuma Lakes, in one of the country's premier winter destinations, is an appealing Southwestern resort that caters to the active adult lifestyle but also allows plenty of space for relaxation. In contrast to the area's desert beauty, Yuma Lakes sits at the edge of a bass-stocked private waterway that provides plenty of opportunities for rowing, canoeing and fishing.

When you're ready for activity, Yuma Lakes has it, with various planned events and social functions. It's the kind of place where it's easy to find a quiet spot yet equally easy to join in the action. The friendly staff will see to it that you find the experience you're seeking during your stay.

There's another reason for Yuma Lakes' popularity. The appeal of driving to Mexico, just 20 minutes away, to take advantage of the extremely affordable and professional health care, dental care and prescription drugs is a major draw to this Arizona locale. It's so popular that Colorado River Adventures offers a weekly caravan from Yuma Lakes Resort to El Golfo, their resort in Mexico. (Please note: U.S. citizens traveling to Mexico require appropriate identification.)

Yuma has a great history. In 1540, the Spanish expeditions recognized that the natural crossing of the Colorado River was an ideal spot for a city, and Yuma was born. Evolving into a steamboat crossing and a place to stop while traversing the river helped Yuma's growth, and it's now a major hub in the desert of the Southwest.
